

DO-DAYS: THE AVIATION WEEKEND

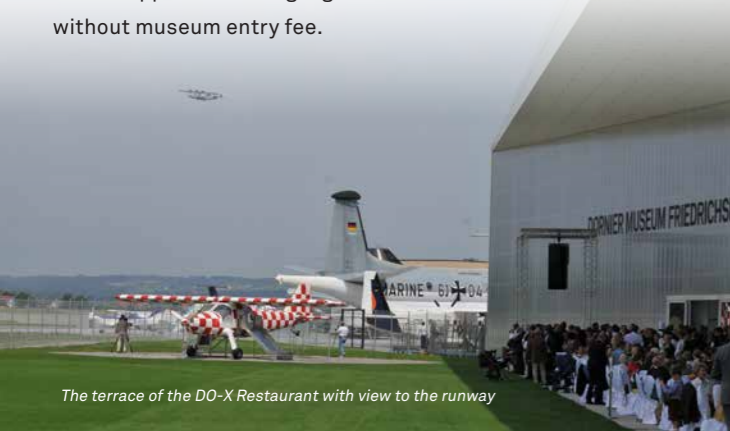

08 AND 09 AUGUST 2015

THE SUMMER HIGHLIGHT FOR AVIATION FANS AND THE WHOLE FAMILY. FLY-IN WITH VINTAGE AIRCRAFT, SCENIC FLIGHTS AND CO-FLIGHT OFFERS AND MUCH MORE

DO-X RESTAURANT & CAFÉ

Regionally and seasonally inspired, the cuisine on offer appeals to all museum visitors. Whether you chose to experience the lunchtime meal, coffee shop or simply grab a cake or a snack during a break, weather permitting, you may enjoy it on the terrace overlooking the airport runways as well as arrivals and departures of the Zeppelin NT - a highlight at Lake Constance. Admission is without museum entry fee.

DIRECTIONS: HOW TO FIND US

The Dornier Museum is located right next to Friedrichshafen Airport and has excellent links to public transportation. **When arriving by car, follow the signs to the airport.** There is ample parking for both cars and buses right at the museum.

ARRIVING BY BUS OR TRAIN

The museum is just 2 minutes walk from the **Flughafen Friedrichshafen train station**. Trains arrive hourly. From the town centre of Friedrichshafen, you can reach the Museum by taking the frequent Busline No. 8, 7586 or 7394 (express bus). The Bus-stop „Dornier Museum“ is directly in front of the Museum. You can also take the light rail connection (BOB).

VISIONARIES UNDER ONE ROOF

Anyone can be a pioneer – that is the main message of the Dornier Museum Friedrichshafen. Located directly at the Friedrichshafen airport, it brings 100 years of fascinating air and space history to life. With architecture modelled on an airplane hangar, on 5,000 m² it houses 400 exhibits, including twelve original aircraft, one original helicopter and seven full size exhibits from aerospace. Authentic replicas such as the first passenger aircraft of the Luft Hansa, the Dornier Merkur, or the legendary flying boat Dornier Wal N25 make the museum visit an unforgettable experience for the whole family.

Technically minded people, history buffs, families and friends of aviation are welcome.

EXPERIENCE AIR AND SPACE TRAVEL

The fascination of flight can be felt in the Dornier Museum. On a trip through the past 100 years of air and space history, one can experience it through the innovative and groundbreaking projects of the aviation pioneer Claude Dornier and the Dornier Group. Countless world records, patents and extreme technical performance document the impressive history of the Dornier company. See what inspired people in political, economic and social context to achieve in the respective periods. The dream of flying can be realized in our new Do 27 flight simulator.

On the Claude Dornier Square is the impressive vertical take-off and landing jet – the Do31

NEW: DO 27 FLIGHT SIMULATOR

DISCOVER THE DREAM OF FLIGHT

Virtual scenic flights around Lake Constance

Buckle in and take off! Seated in an original cockpit of a Dornier Do 27 take off for a virtual scenic flight around Lake Constance. After getting an introduction by an expert you can show off your talents as a pilot: Who can spread their wings and fly? An instructor will provide support and help you get your bearings with all the controls, levers and gear in the cockpit. Whether a single person, group or a school class – live your dream of flying!

You may find all the latest updates for the simulated flights on our homepage.

CHILDREN AND YOUTH IN THE MUSEUM

The Dornier Museum Friedrichshafen specifically targets families, children and young adults alike, and they would like to inspire them with technology and innovation. Therefore it features numerous knowledge enriching activities for children and young people such as guided tours, workshops, holiday programs, educational materials as well as special events.

DISCOVER THE WORLD OF TECHNOLOGY WITH DODO & BELLI

DODO & BELLI are the mascots of the Dornier Museum. With advice, action, games and fun they bring technology closer to the world of children.

DATES 2015:

- Twice daily: open inspections for the Breguet Atlantic marine aircraft
- During school holidays: children and family program
- From summer 2015: special exhibition “100 years Friedrichshafen airport”

The actual special exhibition “**creativity and courage – as innovation comes into the world**” will continue until the 2015 summer holidays. It presents an engineer’s way of working 100 years ago until the realisation of ideas into the future.

A 3D printer, located centrally in the display area, brings 100 creative ideas from the past 100 years to life.
